XENALIGHT®
DESIGNED FOR BRILLIANCE

Teleflex
MEDICAL

XENALIGHT® BRILLIANT IN DESIGN

XenaLight offers consistently high, white light output and longer lamp life.

SIMPLY THE BEST™

Advanced XenaLight technology offers features not found in any other illuminator on the market today. Patented Coolux® port prevents heat migration; case and port remain cool even after hours of use.

AFFORDABLE

Low acquisition and maintenance costs make XenaLight a less-expensive alternative. The unique lamp is economical to replace and lasts far longer than xenon, halogen and metal halide lamps.

ORDERING INFORMATION

XENALIGHT SYSTEM	
XenaLight Illuminator with standard Wolf port	528305
OPTIONAL COOLUX PORTS	
ACMI	528311
Olympus	528312
